

**Amateur Radio Repair Facility Database
Compiled by Geoff E. Haines, N1GY
ARRL WCF Section Technical Coordinator**

The purpose of this compilation is only to provide the amateur radio operators of The West Central Florida Section with a listing of the known repair facilities available. No endorsement of any facility is intended. The decision of which provider the amateur radio operator should select is left up to the individual.

The data has been categorized in the following manner:

1. Companies that are located in Florida.
2. Manufacturers that maintain a national repair facility.
3. Repair Facilities that advertise in national radio publications, or are known to the radio community in the WCF Section.

Where possible, the author has verified by phone call or e-mail the information contained in the database, but no warranty as to the correctness or completeness of the information is intended. In all cases, check with the repair facility selected before taking or sending equipment for repair, modification, or any other service.

This database is in no way complete. Service facilities come into existence, change hands, go out of business, or change their policies all the time. This listing is only the information that was available to me as of June, 2017. Modifications and corrections will be added as necessary and as time is available. Please send changes, updates, etc. to Geoff Haines at email address - n1gy@arrl.net

REPAIR FACILITIES IN FLORIDA:

Rodney J F Clark
1839 Tarah Trace Dr
Brandon, FL 33510
813-654-3236

This operator was mentioned on the Technical Net as someone who does repairs on Ham Radio Equipment. He is an Extra class operator. I have no information on any storefront so I am making an assumption that he works from home. He also has been spoken of highly on the Tech Net.

Metro Electronics
4750 96th Street North, St Petersburg, FL
727-391-1577

Dave Callahan, KC4WHO
General Class

Metro Electronics is a parts sales and service establishment with a specialty in parts on LEDS but also has a full repair facility on site. Reports from local hams are very complimentary.

Technical Specialists,LLC
5911 East Dr. MLK Blvd.
Tampa, Florida, 33619
813-784-5536

Web: www.amateurradiorepair.biz

Lee is apparently back to work full time after a fight with a spider and will do component level repairs on almost any radio brought or sent to him. The new web site (above) is still under construction but already there is plenty of info there.

International Radio Service Division
1118 Raymond Ave.
Ft. Pierce FL 34950
1-772-489-6302
Fax 1-772-466-0248
Email: intlradio@juno.com

Facility offers repair service on most makes, modifications for Kenwood and some Yaesu equipment, some parts for KDK, batteries etc.

MANUFACTURERS NATIONAL REPAIR FACILITIES

ATOC Amateur Distributing LLC
23 S. High St.
Covington, OH 45318
Email: cs_alinco@atoctechnologies.com

**Facility offers warranty and non-warranty repairs on Alinco Radios. Turnaround time dependent on workload (1 to 8 weeks)
Note: some older models may no longer be supported.**

Icom America Inc.
2380 116th Ave. NE
Bellevue, WA 98004
425-454-8155

Website: <http://www.icomamerica.com/>

Facility offers warranty and non-warranty repairs on the Icom line of amateur radio equipment. Note: some older models may no longer be supported.

Kenwood Communications
3975 Johns Creek Court
Suwanee, GA 30024

PO Box 22745
Long Beach CA 90801-5745
Customer Support
310-639-4200
Fax 310-537-8235

Website: <http://www.kenwood.net/>

Facility offers warranty and non-warranty repairs on the Kenwood line of amateur radio equipment. Note: some older models may no longer be supported.

TEN-TEC
Ten-Tec Inc.
1185 Dolly Parton Parkway
Sevierville, TN 37862
Repair Dept.
865-428-0364
Fax 865-428-4483

Email: service@tentec.com

Website: <http://www.ten-tec.com>

Facility provides service on most Ten-Tec equipment produced in the last 35 yrs. A few exceptions due to UN-availability of parts.

YAESU
Vertex-Standard
10900 Walker Street
Cypress CA 90630
714-827-7600

Email: amateurtech@vxstdusa.com

Website: <http://www.yaesu.com>

Facility offers warranty and non-warranty repairs on the Vertex-Standard Line including Yaesu. Some older equipment may no longer be supported.

OUT OF STATE INDEPENDENT REPAIR FACILITIES:

Tucker, GA 30084-3325

770-939-1320

Email: pwhansen@bellsouth.net

Facility provides repairs on most amateur radio equipment

Contact before sending equip.

Mike Nadeau, N1EQ

274 Covell Road

Fairfield Maine, 04937

www.n1eq.com

Mike does very good work, but the list of rigs he will work on is limited. He specializes in Icom and Kenwood base rigs. The only mobile rig he works on is the IC-706MkII G. His service is outstanding. He is very certain of the procedure to get him to work on a rig but the results speak for themselves. See the web site first and follow all of the instructions. Shipping is via UPS Ground both ways
